*Lenin Criticized
But Me...*

RIGA, April 5 (AP)—Two of the physicians attending on Nikolai Lenin Soviet Premier, Dr. Leipšic and Dr. Nozarevsky, are returning home. They spent about ten days here. While reticent concerning their mission, they nevertheless stated that the Premier's momentary improvement or finger indicating the paralysis from which he was suffering was incurable and caused death.

Lenin is being carefully attended by even the attending physician, a special permit for whom visits are made daily. The Baltic press of the specialists records time he is summoned.

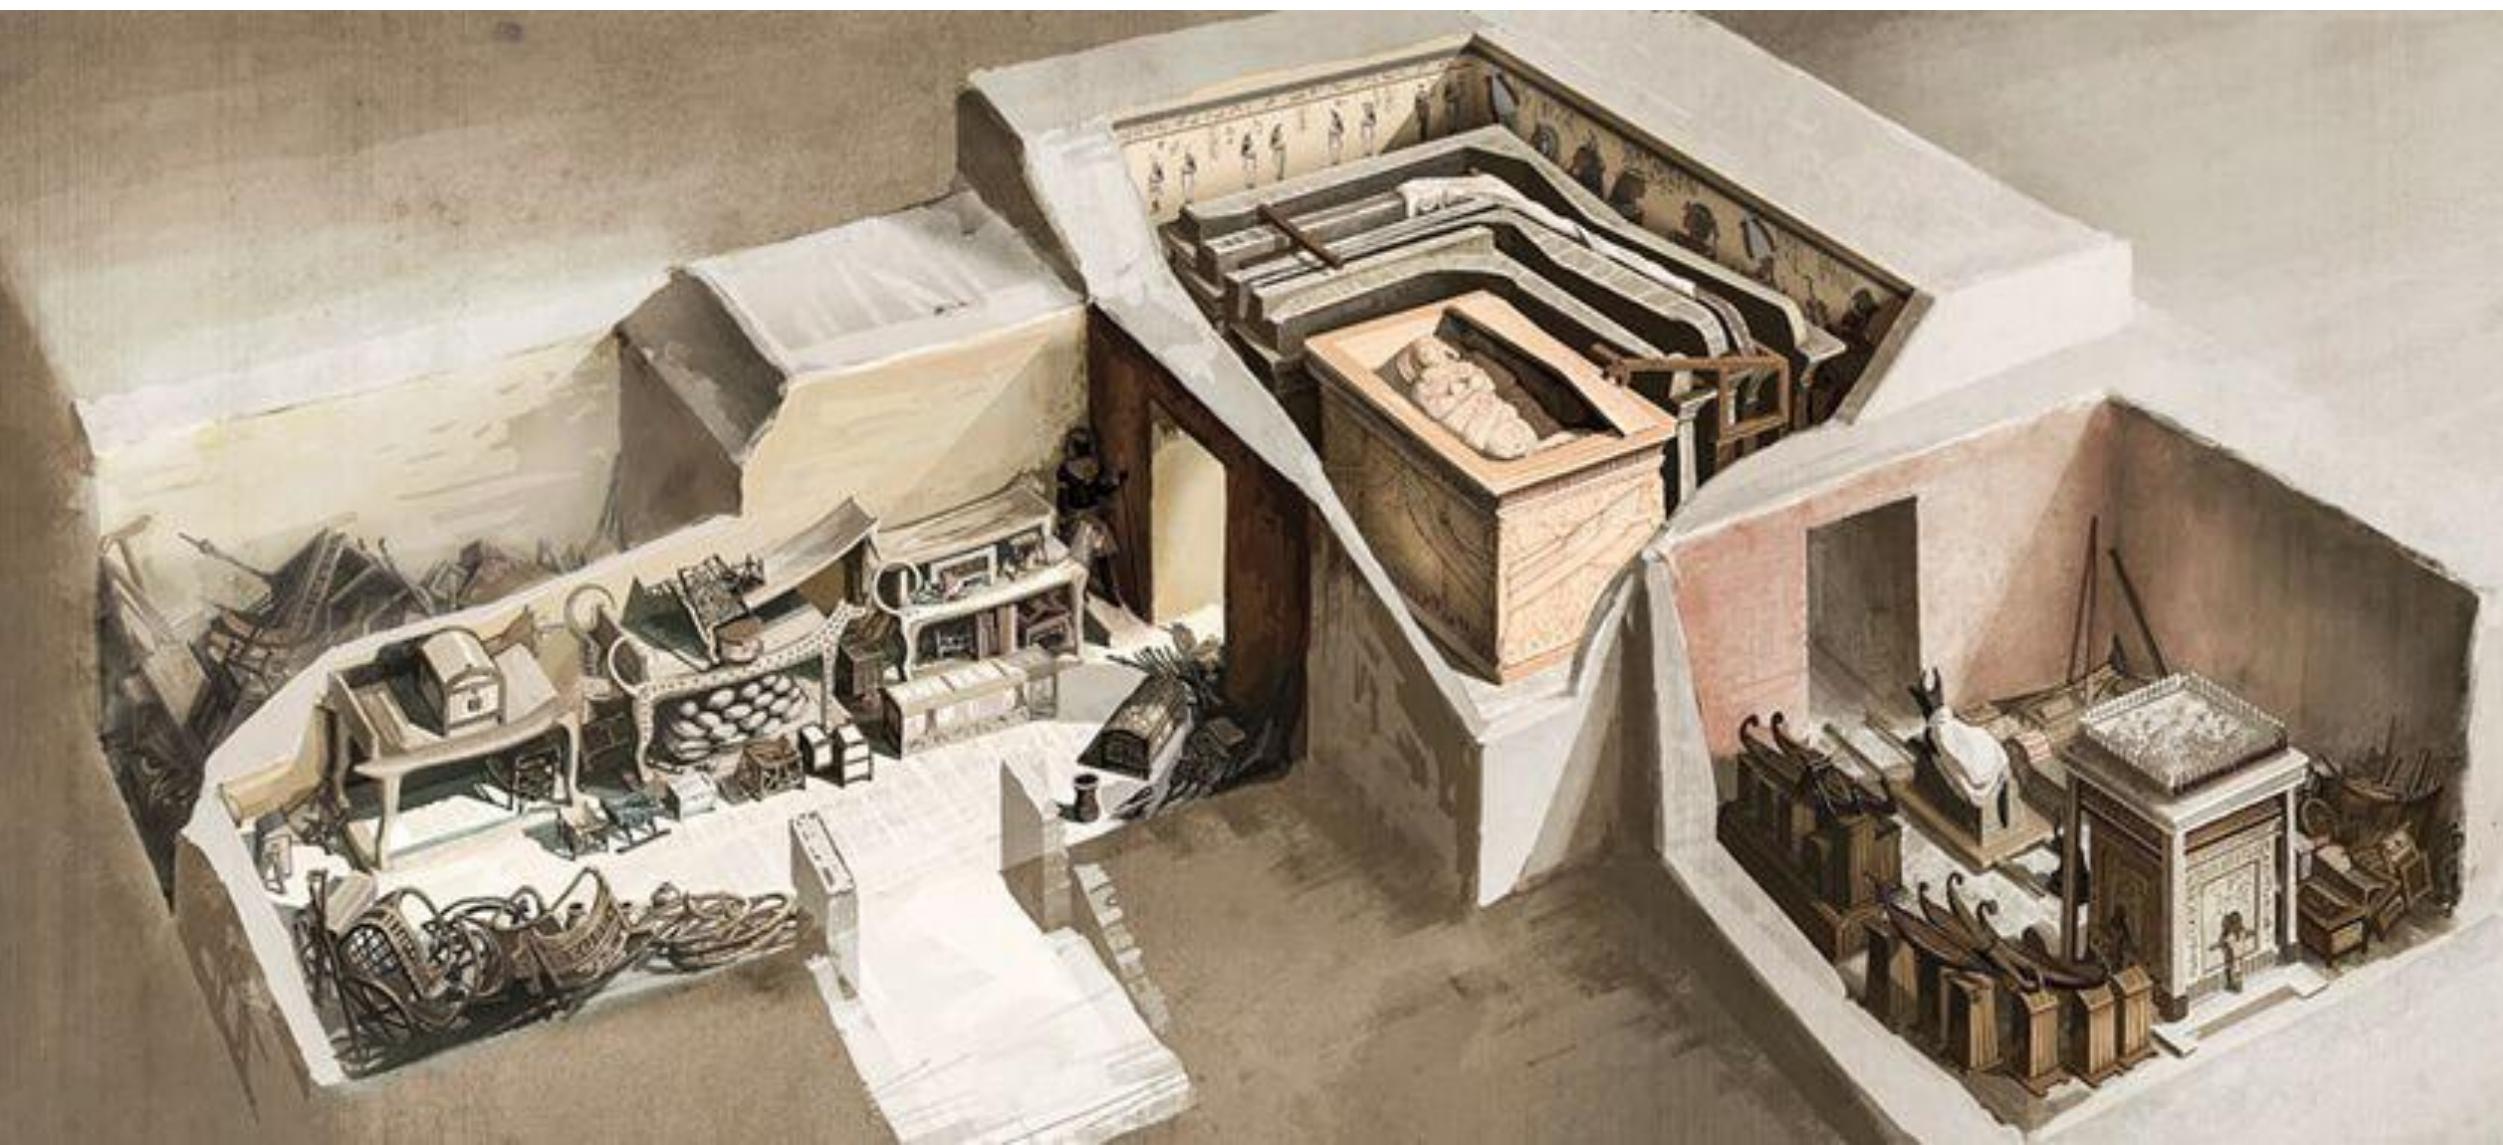

MOSCOW, April 5 (AP)—Nikolai Lenin continues to improve according to the physician attending him. His temperature is 98, respiration 24. Though a sick man,
